

Ron & Marlene Brice  
100K Premier Selects

Marlene had a very successful career in the banking industry being in charge of several large departments as well as ending up high in management of a bank prior to marrying Ron. Marlene has a long history of dealing with people and has well developed people skills. She has learned Network Marketing in the XANGO business and she is currently well respected as a compassionate and effective teacher and leader in XANGO. Marlene is very competitive, and for several years showed a quarter horse and won many awards traveling the quarter horse show circuit prior to meeting Ron.

Ron is a retired Airline Captain, and was, prior to XANGO, a very successful distributor in another network marketing company, although his skills were a little rusty since he had been out of the industry for 23 years. Ron is very much a “Car Guy” and an “Airplane Guy”. In fact Marlene has fit right in, enjoys the airplanes a lot and is getting to be a very good copilot. She loves flying in the business plane, especially for business reasons. Ron and Marlene have a very competitive 1934 Ford highly modified show car named “GHOST” that they showed extensively in the indoor show car circuit. They still own this car which they intend to make a part of their XANGO life. They have excelled at everything they have tackled together, and owned an award winning KOA Kampground in the 90s.

Ron and Marlene have built the entire XANGO business they operate with family and friends, and no experienced networkers personally sponsored into XANGO except for one good friend who came in at about the two year point in the business they operate. They love being a XANGO Ambassador, and share the product as well as the business opportunity as an integral part of their daily lives.
